Our Offerings

ERP for Manufacturing and Distribution

Soham is an ERP Solution specifically designed for Small & Medium scale enterprises, having 100+ installations in Manufacturing Industry. It is an integrated platform of Manufacturing, Sales, Distribution, Supply Chain and Financial applications, helps you to optimize costs, quality, customer service and improve Delivery performance. Implementation is key to success, Soham implementation is aligned with Lean concepts to improve your Top line & Bottom Line.

You can integrate third-party applications such as Document Management, CAD Software, Storage Systems, Standard Accounting Software and so on.

SOHAM

Connekt to your Markets

Connekt is a Solution for Secondary Sales Management for FMCG, Food and Consumer Durable Industry. It is a Mobility-based platform for Sales Force Automation (SFA) and Distribution Management.

This Automation enables companies to ensure Stock Availability, Service Continuity, drive growth by empowering sales teams, bring agility, and acquire control in market development operations.

It is a Cloud hosted 'Always connected' system with open connectivity with Primary ERP through API.

CONNNECT

From Information Out of Reach ... to Information Outreach

Infralinkit helps you to collect non-ERP unstructured data, such as paper forms, images, audios, videos from your mobile or directly from any connected equipment. You can use this to collect information from Project Sites, Shop floor, Field Staff, Your Suppliers and so on, and allows you to easily integrate with your existing ERP or any other Software.

Distinct benefits of infralinkit are seen in Informed decisions and Micro-level monitoring of Operations.

infralinkIT

21-CFR-Part-11 Compliant System for Pharma Industry

ICM is Instrument Calibration Manager specially developed for the Pharmaceutical industry. It is a fast and easy-to-use software system that is a Historian for your long term, organized, and readily accessible calibration records on all types of instruments.

It helps you in Planning, Scheduling & Executing Instrument Calibrations along with Certificate Printing. ICM brings control over various validations such as SOP's, Master Certificates, Agency Contract, Schedule dates and ensures the integrity of data, procedures, documentation & processes followed.

ICM

Software for Overcoming Hurdles in Manufacturing

Track-N-Act

This is a simple system that will help you record and keep track of everyday hurdles that affect Production. The objective is to achieve planned production in the most optimized manner. It helps you record these hurdles as problems and causes, by classifying these under SQDC.

- **Safety** – Zero recordable instances of loss time due to work place injury
- **Quality Performance** – Eliminating rejections, Waste
- **Delivery/Customer Service** – Customer Complaints
- **Cost Performance** – Inventory levels, productivity and line Efficiency

It will help record these problems against Support Function Departments such as Quality, Stores, Tool room, Maintenance, Planning, Dispatch, Sourcing, etc. so that a proper Track can be kept, and Actions can be performed and recorded. TNA will help you streamline your Processes, perform informed action on repetitive problems & thus align your resources in the most optimized manner.

The logo for Track-N-Act (TnA) features the letters 'TnA' in a stylized, bold font. The 'T' and 'A' are red, while the 'n' is yellow. A yellow pencil is positioned behind the 'n', pointing upwards and to the right.

Fault Tree Maintenance

FTM is a Computerized Maintenance Management System. It has Evolved over the past 20 years through active feedback from its users & has a base of over 60+ Installations across India & abroad.

Werardt's emphasis is on Efficiency and hence it has a well-defined Implementation approach to Go-Live within 4 to 6 weeks. FTM is a Pre-Configured system with Pre-Canned reports!

FTM is a Historian for your Machines and helps record Breakdowns, Preventive Maintenance (PM), Spares Utilization, Manpower Utilization, Failure Modes and Causes, Repairs and Inventory, The Breakdown module is coupled with Why-Why Analysis & 6W2h for your TPM and helps Effectively apply Industry Best Practices in your company. It also comes with a Mobile App to simplify the data entry from the work location.

The ready-to-use reports available through FTM are for MTBF, MTTR, % Breakdown, Machine history, PM Planner & Schedules, Spare Consumption, Inventory Management, Pareto Analysis, Why-Why Analysis, etc.

The logo for Fault Tree Maintenance (FTM) consists of the letters 'FTM' in a bold, blue, sans-serif font. The letters are enclosed within a white, hand-drawn style oval.

Red Tags

The TAG System or eTAG is a simple, effective and easy-to-use system to record RED Tags across your Plants for any abnormalities, unwanted material etc. that needs action.

This can be used across the plant by all to record such activities. eTAG also helps record Safety conditions or more precisely unsafe conditions observed across the plant along with various Leakages such as Oil, Coolants, Air, Steam, etc. that are observed.

In fact, eTAG will also help Production to raise JH or Autonomous Maintenance tags to streamline this activity more effectively.

eTAG will help you sustain your efforts in implementing 5S across your plant !

About Us

Werardt has been offering Solutions that enhance your Effectiveness, bring Efficiency to your operations and help you in this ever Evolving Markets.

- A Software solutions Company with an experience of over 25 years
- Solutions in achieving Speed & Focus
- Product portfolio in Manufacturing, Plant Engineering & Sales and Distribution Space
- With a foray into Predictive Analytics using Neural Networks
- Has an Experienced team of over 30 Professionals
- 200+ Active Customers for various products
- Clientele ranging from SME's, Tier 1 and Global companies
- Customers spread all over India, SE Asia, The Gulf, Europe & the US

Some of our Clients

- SKF Group
- Sandvik Asia Group
- Pernod Ricard Group
- Cipla Group
- Dana India Group
- Coca Cola
- Bosch Rexroth
- Alfa laval
- Vanaz Engineering
- Elecon Engineering
- L'Oreal India
- MAX Specialty Films
- Weener Empire
- Seco Tools
- Thyssenkrupp Electrical Steels
- Yamazaki Mazak
- Ziehl-Abegg India
- Emesa Elevator Components
- Brembo Brakes
- Parakh Agro
- Legrand India
- Mothers Recipe
- Action Tesa
- Obeikan Glass
- Fibro India
- Ascent Castings
- P. N. Gadgil
- KTA Spindles
- Siegwerk India
- M'La
- Falcon
- Excel Group
- Versa Controls
- Alan Electronics
- Ecolayers Inc.
- K-PRA
- Reshmika Minerals
